

President's Message

CIRMA's Rich History

During these most uncertain and unprecedented of times, CIRMA celebrated a significant milestone: our 40th anniversary. Just over four decades ago, a sharp increase in the cost of liability insurance almost drove the insurance industry to the brink of collapse—municipalities, boards of education and local public agencies across the nation were deeply affected. In fact, during the crisis, an issue of Time Magazine's front page featured a sobering headline: "Sorry America. Your Insurance Has Been Canceled."

Out of these difficult times formed the humble beginnings of the Connecticut Interlocal Risk Management Agency. And over the last 40 years CIRMA has seen – and overcome – many challenging moments. Despite all this, the following remains true: in times of great disruption and uncertainty, our ability to stay grounded in our sense of purpose, and remain true to our mission has allowed us to deliver unmatched and sustainable results for our members.

Optimal Performance and Sustained Success

Today, we continue to proudly deliver critical insurance products and leading risk management and claims services for the communities where we work and live—and they are counting on us.

We have a demonstrated history of rising above our competitors. CIRMA's financial strength and performance, especially through these difficult times, exemplifies the undeniable value of our underwriting excellence, expense management discipline, and unmatched claim and risk management expertise. We continue to deliver new and innovative products and services that meet the evolving needs of our members and make strategic investments in technologies that systematically increase operational agility, bolster business efficiencies, and enrich member experiences across all of our lines of businesses.

We are better positioned than ever to continue our success and remain laser-focused on exceeding the expectations of our members. The long-term value of CIRMA is embodied in our strong financial and operational performance.

Over the last five years:

- Total Assets have grown by \$70M
- Our combined ratio results outperformed the industry by almost 18 percentage points
- Members' Equity has grown by \$81M
- Nearly \$20M in Members' Equity was distributed over the last five years, with \$32M distributed over the last ten years

- Average rate need was -2.54 for workers' compensation and -0.82 for liability-autoproperty
- Over \$118M in medical cost savings have been achieved through CIRMA managed care programs
- Over 80,000 public-entity employees participated in CIRMA training

A Bright Future Ahead

Our strategic business imperatives will continue to propel us forward with a deep sense of clarity as we remain focused on investing in business intelligence and innovation, expanding our products and services, recruiting world-class talent, enhancing member engagement, and advancing CIRMA capital management strategies.

CIRMA's consistent financial and operational achievements continue to augment our ability to deliver substantial and sustainable competitive advantages, over time. Our focus, as always, will continue to be on helping to protect our members. We have the resources to solve tough problems. We are engaged in every facet of our industry and have the deepest commitment to our employees, our members, and our business partners.

A Promise Made. A Promise Kept.

Much has changed since 1980. Our industry continues to evolve at a rapid pace, and technology has transformed the way we connect and get things done—especially during a global pandemic. In light of all of this, we continue to emerge from a position of strength and vitality.

We continue to serve our members in profound ways that extend far beyond the limits of any policy. I believe this is largely because **our mission** was carefully constructed years ago to endure the test of time. **Our mission** has remained contemporary throughout the years and will continue to guide us for decades to come. **Our mission**, after all, remains the unequivocal keystone of **The CIRMA Promise**.

Sincerely,

David Demchak, President & CEO,
Connecticut Interlocal Risk Management Agency

Celebrating 40 Years

A Promise Made. A Promise Kept.

Important CIRMA milestones

1980

1983

1990

Connecticut Conference of Municipalities spearheads legislation enabling Interlocal Risk Management Agencies, ultimately establishing CIRMA. CIRMA began its first year of operation with 16 members, and before the end of the policy year an additional nine members joined, raising the total to 25.

CIRMA became the largest municipal insurer in the state, and one of the leading municipal risk pools in the nation. Three years later, in 1986, the CIRMA Liability-Auto-Property Pool was formed. While the nation struggled through the economic recession, CIRMA's assets reached \$73M, a 21-fold increase since 1980. Third-party-administration services were introduced for selfinsured public entities that provided claim and risk management services.

1998

2001

2002

CIRMA's competitive advantages increased dramatically after claim and risk management services were expanded and brought in-house.

After the country endured the events of 9/11, the municipal insurance market gained momentum which led to a period of rapid membership growth, internal development, expanded products and services, and recapitalization.

CIRMA's membership grew from 58 members to an impressive 253 members. CIRMA continued to strategically expand products, claim services and risk management programs. Liability-Auto-Property underwriting teams and capabilities were brought in-house.

2008

2015

2018

The market continued to soften and the economy entered a deep recession; however, CIRMA's retention rates remained high, premiums reached \$74M, and assets totaled \$234M.

From 2015 to 2020, CIRMA distributed \$20M in Members' Equity and has delivered \$32M back to members since the program was accelerated in 2010.

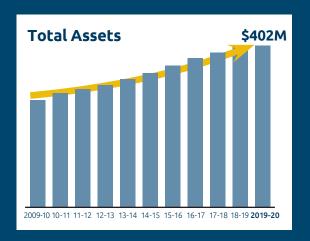

CIRMA achieves record-high operational and financial results, further solidifying its long-term competitive positioning in the marketplace. Financial highlights included continued growth in Members' Equity totaling \$177M, an impressive \$402M in total assets and almost \$90M in premium.

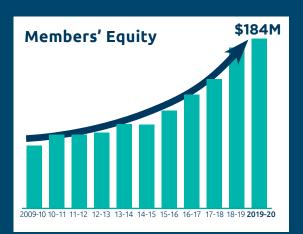

CIRMA + Our Members. Better Together.

2021 Excellence in Risk Management Awards

Cromwell Board of Education Establishing Risk Management as an Organizational Priority

Education and training are essential components of an organization's safety and health program. A true testament to Cromwell BOE's sustained commitment to educating employees on the latest risk trends, approximately 250 employees from Cromwell Public Schools attended CIRMA Risk Management in-person training over the past year alone.

The Cromwell BOE team empowers staff with educational tools that uncover and close gaps to help mitigate losses. The team actively participates in CIRMA's School District Advisory Committee, and works in concert with CIRMA, bringing to bear all the expertise, tools and solutions necessary to deliver superior outcomes. The marked results realized include a significant decrease in the number of workers' compensation claims and a notable decline in Liability-Auto-Property claim costs, over the past year.

With a proven track record, the Cromwell BOE has been recognized for its dedication to the protection of its employees and community.

City of Middletown Substantial Impact on Total Cost of Risk

Augmented by a strategic reorganization that streamlined investigatory processes and efficiencies, the City of Middletown substantially reduced costs by leveraging its partnership with CIRMA to gain in-depth knowledge of current and emerging regulations, safety and health management, and operational exposures.

Partnership is more than collaboration with our members; it's a long-term commitment to advocacy and solving problems to help them succeed. The Middletown Risk Manager and her team routinely engage with CIRMA Claims and Risk Management professionals. Both work closely to evaluate claim and risk management action items and develop practical solutions that solve complex challenges at facility and operation levels.

These efforts all add up to some impressive net results. Over the last six years, the City of Middletown has experienced a remarkable 41% decrease in overall Liability-Auto-Property claim severity and achieved approximately \$1.5M in legal cost savings.

Town of New Milford Sustained Risk Management Programs

In today's environment, success requires vision. Public entities face unique risks that need long-term, sustainable solutions. With a laser focus on reducing risk across the board, the Town of New Milford implemented a robust employee training program that leverages CIRMA's educational tools and resources to improve workplace safety, reduce the cost of risk, and adhere to state and nationally-recognized standards.

Throughout the years, New Milford experienced a marked increase in program awareness and adoption. Over the last two years, 100% of employees successfully completed the training program using CIRMA's extensive suite of leading educational tools and resources.

Further amplifying the program's overall effectiveness, New Milford saw fewer workers' compensation claims with an almost 10% decrease in total claim volume. The Town also saw a notable decline in Liability-Auto-Property claims with a 41% reduction in claims over the last two years.

Vernon Board of Education New and Innovative Risk Management Initiatives

In the wake of a global health crisis, educators were challenged to reimagine the world they once knew. And during a time of considerable duress, the Vernon Board of Education (BOE) would prove that while they couldn't predict the future, they could help control its impact.

The Vernon BOE sought out the District Health and Safety Committee's expertise and worked tirelessly throughout the summer months to construct a Re-Opening Plan for the 2020-2021 school year. The Vernon BOE also capitalized on its partnership with CIRMA. Recognizing the value of their bespoke core competence, Vernon worked closely with CIRMA's Risk Management team to implement critical health and safety protocols in preparation for the re-opening.

Due to their ongoing commitment to engaging strategic partners in unique and innovative ways, the Vernon BOE orchestrated a remarkably successful district-wide re-opening that others would widely emulate. The district has not experienced a single claim related COVID-19 exposures or its handling of the pandemic response.

OUR MISSION

The purpose of the Connecticut Interlocal Risk Management Agency (CIRMA) is to meet the risk management and risk financing needs of Connecticut municipalities, boards of education, and local public agencies.

CIRMA achieves this purpose by:

- Anticipating and responding to the risk management and financing needs of its members in a changing environment.
- Providing quality services tailored to municipal operations and requirements.
- Ensuring the availability of insurance coverage at reasonable prices, and thereby creating stability in the marketplace.
- Preventing accidents and managing injuries through effective loss control and claims management programs, resulting in savings over the long term.

CIRMA was established in 1980 as a service program of the Connecticut Conference of Municipalities. Governance is provided by CIRMA's Board of Directors, elected from the membership. CIRMA operates two risk-sharing pools, the Workers' Compensation Pool and the Liability-Automobile-Property Pool and provides risk management services to self-insured municipalities and local public agencies.
